Experience

Stonegait & Masons Lagos / Software Developer Intern

July 2018 - November 2019, Lagos, NG

Stongait & Masons is a subsidiary of Temple & Aegandas Limited, which is a real estate company and also into fintech solutions.

I worked in the IT department, where we worked on the company's projects and also made a deep research into BlockChain and cryptocurrencies.

The technologies and tools we used include:

PHP (Laravel), Wordpress, Joomla, JavaScript.

525System Calabar / Software Developer

January 2019 - Presently, Calabar, NG

525System is a tech innovation hub based in Calabar, in Cross River State. We provide Tech solutions of all kinds ranging from Software Development to Internet Solutions, Computer Repairs and IT Consultation:

The technologies and tools we use include:

ReactJS, NodeJS, PHP (Laravel), Figma, Semantic UI, Bootstrap, and Wordpress.

Certifications

Google Cloud Platform Fundamentals: Core Infrastructure

An online non-credit course authorized by Google Cloud and offered through Coursera.

Volunteering

Developer Students Club

November 26th 2018 - November 29th 2019

Developer Students Club is a program powered by Google in Universities in Sub Saharan Africa. I was part of the core team at my University. The goal was to organize events and train young developers within our reach.

CodeCradle Innovations Limited

March 2019 - April 2019, Calabar, NG

CodeCradle is a Lagos based technology company that provides solutions to clients and businesses in different sectors including education, finance and oil & gas.

In March 2019 CodeCradle organized a free programming training for young people in Calabar, within the ages of 11 to 25. I was opportune to volunteer and help prepare a suitable curriculum for the three levels of the training (beginner, intermediate and expert).

I was also one of the instructors.

Andela Learning Community

March 2019 - November 2019

I volunteered as a mentor to help train students in the Andela learning program. We organized meetups and guided the students towards achieving the Andela certificate. The program was powered by google

Education

Cross River University of Technology / Bachelor of Computer Science.
